Portfolio: <https://meelissapro-debug.github.io/melissabrunet.github.io/> · [LinkedIn](#)

French national · English C1 · Spanish B2

UI/UX designer retraining from a career in teaching. I work from user research through to front-end integration. After five months at Optimo Coaching, where I ran the firm's complete website redesign single-handedly, I complete my Interface Design degree in December 2026. The programme is fully online and self-paced, so I am available full time with no scheduling constraints.

Experience

UI/UX Designer (internship)

Mar - Jul 2026

Optimo Coaching, La Garde, France

- UI/UX and digital communication audit of the existing website: SWOT analysis, section-by-section review, actionable recommendations - a 12 page report delivered to management
- Complete redesign: information architecture, art direction (palette, typography, interface principles), mockups
- Front-end build in HTML, CSS, JavaScript and PHP; deployment and maintenance of optimocoaching.fr
- Post-launch user feedback survey with six external respondents
- Social media visual identity: template system, colour codes, typography
- Editorial calendar, SEO-optimised articles, newsletters, NFC business card prototypes

Music Teacher

2022 - 2025

French Ministry of Education and conservatoires, Paris and Garches

- Designed visual and digital teaching materials for full classes
- Adapted content for mixed-ability audiences, from beginners to advanced students
- Master's dissertation on redesigning teaching materials to support equal opportunity

Bookseller

2021 - 2023

Fnac Vélizy 2, France

- Customer advice and product display: table layout and visual hierarchy of retail space
